New Student Selection Page

Hi Katie. Please select a student:

Annie
Joe
Jim
Mark
Lisa

If the account is attached to more than one student, show list of students. Otherwise, go straight to the single student's Lesson Page.

 CVC Wrap-up 

Changes:

- 1.Change site design to match mockup (use 2 columns for desktop, 1 column for mobile and tablet)
- 2.Add progress bar for Lessons Completed (out of 104)
- 3.Add progress tracking to the modules as well as the lessons (the site code already tracks whether a lesson is started, completed or mastered, so you just need to do the progress bar code)
- 4.Display student name. If there are multiple students, show a dropdown so it is easy to switch between students.

cat

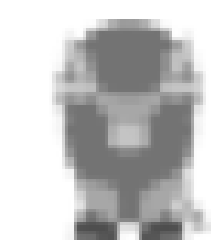

rat
sat

Changes:

1. Currently, the eye icon pops up a list of words from the lesson (the list comes from a JSON file). Delete the eye icon and then modify the script to include a tooltip with the word list instead.
2. Change the color of the "First" and "Last" buttons to #99dde5.
3. Print a history of the words that have been spelled beneath the word window

Changes:

- 1.Modify page title and Script (include a tooltip that lists the words when you mouseover it.)
- 2.Add a plus sign icon and an eraser icon under each box. When the student clicks the plus sign and then a letter (or a letter and then the plus sign), add the letter to the box. When the student clicks the eraser icon, erase the letter(s) in the box.

Fix Tic-Tac-Toe Game

Note: You can find the game on the Practice tab

- 1. Make the animals smaller (60 X 60 pixels), and center the game in the popup window
- 2. When an animal is placed on a square, the game board shouldn't shift or move at all.
- 3. If an animal is moved to another square after it's initially placed, the word should still be in the square (the square should NOT be left blank)
- 4. Change font of the words to "mul"i
